DETAILED ACTION

1. This office action is a response to the U.S. application Serial No. 10/671035 filed on 09/25/2003. Claims 1-32 are presented for examination.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 22 and 30 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. These claims recite the limitation "computer readable signal". However, in view of applicants' disclosure, specification page 13, lines 5-22, the medium is not limited to tangible embodiments, instead being defined as including both tangible embodiments (e.g., hard disk, floppy disk, CD-ROM, EEPROM, page 11, lines 2-3) and intangible embodiments (e.g., transmission media, radio waves, infrared signals).

Therefore, the following amendments are necessary in order to overcome the USC 101 rejection.

Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Steven Roth (Reg. 34712) on September 11, 2006.

- a) Claim 22, line 7, insert -- recordable -- after "readable".
- b) Claim 30, line 18, insert -- recordable -- after "readable".
- b) Delete claims 23-24 and 31-32.

Reasons For Allowance

3. The primary reasons for allowance of claim 1 in the instant application is the combination with the inclusion of at least the limitations set forth in lines 6-11 of the claim.

The primary reasons for allowance of claim 7 in the instant application is the combination with the inclusion of at least the limitations set forth in lines 6-10 of the claim.

The primary reasons for allowance of claim 8 in the instant application is the combination with the inclusion of at least the limitations set forth in lines 10-15 of the claim.

The primary reasons for allowance of claim 9 in the instant application is the combination with the inclusion of at least the limitations set forth in lines 4-8 of the claim.

The primary reasons for allowance of claim 16 in the instant application is the combination with the inclusion of at least the limitations set forth in lines 4-11 of the claim.

The primary reasons for allowance of claim 21 in the instant application is the combination with the inclusion of at least the limitations set forth in lines 5-10 of the claim.

The primary reasons for allowance of claims 22 and 30 in the instant application is the combination with the inclusion of at least the limitations set forth in lines 2-6 of the claim.

Because claims 2-6, 10-15, 17-20 and 25-29 depend directly or indirectly on claims 1, 9, 16 and 22. These claims are considered allowable for at least the same reasons noted above.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
